

Here is a breakdown of the login card sent home last week. If you have trouble accessing a service contact Mr Fraser [d.fraser@westparkacademy.org.uk](mailto:d.fraser@westparkacademy.org.uk)

Office 365 is currently only available for children in Y4-6. Y1-3 children's accounts will be set up over the coming days.

This will allow you to access Microsoft Word, Powerpoint etc at home. The children can also use this to email class teachers.

There is also the potential to do video conferences etc should we need that through Microsoft Teams.

This is a new app to school with games to practise spelling. Teachers will be able to allocate activities but children can also login and practise spelling independently.

Espresso is free for all children to access at home. They have videos, activities and games linked to all areas of the curriculum. The content is vetted for Primary aged children and they are encouraged to explore and access a range of topics.

This login is for use in school only.

This is our school Virtual Learning Environment. All work to be completed will be uploaded to the VLE for the start of each day (from 30.3.20). This will be in the **Homework** section. If your child completes some work this can be uploaded / photographs can be uploaded and shared with the teacher.

Emile is an educational game which is great for rehearsing skills in English and Maths. Teachers will be allocating assignments on Emile and children can freely access activities of their choice / play games against their friends.

Children in Reception and Year 1 have access to this app. The children play games designed to support them with early phonics skills (blending & segmenting).
